EDUCATION

Junior Developer, Mississippi Coding Academies**,** expected graduation May 2019
Jackson State University, December 2015, Bachelor of Arts in Graphic Design, Cum Laude Honor Graduate
Pelahatchie High School, May 2012

TECHNICAL EXPERIENCE

React, Mississippi Coding Academies, March 7, 2019 - present
Goal: To create a website, based on a product, site design, API, and database.
- Created the user flow and outline of the website.
- Facilitated a database to store essential information of my car rental project.
- Employed functions to break down the HTML code into several parts to compile them together in React.

ATM, Mississippi Coding Academies, November 26, 2018 to December 19, 2018
Goal: To make an interactive Atm in the web browser.
- Designed a name and logo for an ATM machine in Adobe Illustrator.
- Implemented JavaScript to make several function such as withdrawal and PIN code.
- Stored data in an array for password and username.

Bootstrap Project, Mississippi Coding Academies, August 13, 2018 to August 21, 2018
Goal: To create a website to resemble an original website using HTML and CSS.
- Created buttons with a hover function that makes the buttons on the site change color when user is hovering over them.
- Implemented pictures to show product design and structure.
- Used margins and padding to improve structure for website.

WORK EXPERIENCE

Kelly Services, Substitute Teacher, 2016 -2018
- Take instructions from school office and lead teacher about handling classroom instruction.
- Read and understand curriculum and lesson plans.

Dairy Queen, Chill Worker and Cashier, 2013 –2015
- Chill worker- make orders of ice cream for potential customers.
